THE VERY LATEST NEWS BY WIRE

(By Special Telegraph.)

LONDON, Dec. 8.—At this date the elections stand—Liberals, 219; Conservatives, 215; Nationalists, 73.

In St. Andrew's the Liberal and Conservative candidates each have 1,250 votes. The vote will be revised.

REGINA, Dec. 12.—The North West Council is still in session. The elected members attacked Dewdney, and said he was responsible for the late rebellion in the North West.

WINNIPEG, Dec. 16.—Very cold weather in Ontario.

The excitement still continues in Quebec.

The French Canadian workmen are agitating the question of important labor reforms. They demand that no English speaking emigrants be assisted.

Conservative papers assert that Sir John has gone to England to arrange the basis of a new reciprocity treaty with the United States.

The managers of the Canadian Pacific railway have taken important steps towards completing their telegraph system by appointing an experienced general manager.

It is reported that Sir Chas. Tupper will shortly re-enter the Cabinet.

Riel's body arrived at St. Boniface last night and taken to St. Vital, where it will be exposed.

LONDON, Dec. 11.—Seven Parliamentary seats remain to be filled, and the Liberals count upon three of them, which will raise their total to 357 against 250 Conservatives and Nationalists.

The Princess Louise will shortly visit Canada.

This morning a troop of the N. W. M. Police, in charge of Supt. Neale and Inspectors Hunt and Saunders, left Regina by special train for Dunsmuir, en route to MacLeod. Whiskey smuggling has been going on there, which is the cause of their going, but a reverend resident at Calgary is authority for the statement that the Black Indians are threatening and menacing in their conduct.

Arch-Bishop Tache is out with a manifesto on the Riel matter. He traces the cause of the rebellion, which he places at want of proper understanding of the West by Canada and in incompetent officials, spirit of speculation, and on white rebels, who for sake of gain led half-breeds on, and led them to send for Riel. He deplores the events which followed, and advises measures of tranquility and peace. He takes no stock in the new movement, says he is not a party man, and blames the existing parties for what has occurred.

Mr. Robertson, of Carrol River, a very successful stock raiser, has been in town for several days during this week. He brought in with him about 4,000 lbs. of beef, which he has disposed of to Mr. James MacArthur.

The nominations for a councillor to fill the vacancy caused by the resignation of Mr. Wm. Tait will be received on Saturday, the 10th inst., at the office of H. W. Newlands, and in case a poll is necessary, the election will be held on Saturday, the 26th, at the same place.

We did hear rumors that the N. W. M. Police intended giving New Year's ball. We don't know anything definite yet about it. We hope it is true. We believe they generally give one every winter, at every large Police post, and now this place is the headquarters of a troop.

A meeting of the vestry was held in the Mission Chapel on the 8th inst. His Lordship in the chair. Mr. S. Hewster was elected people's churchwarden in place of the late lamented R. C. Elliot, who fell in the Bush Lake battle. Steps were taken towards adding a chapel to the present building, and also for providing a salary for the curate by the congregation.

The Municipal Ordinance has been amended and consolidated, and one of the most important clauses is the introduction of the ballot.

Mr. W. Pearce, Inspector of mines, has been in town during the past week settling land claims for the Dominion Government. He left for the east to-day.

Chief Factor Belanger left for Cumberland on Thursday morning to attend to his duties in that district. He expects to return to Prince Albert some time in January.

Mr. A. A. Potter, Dominion Telegraph operator at St. Laurent, has been spending a few days in town. He goes to Battledore to take charge of the telegraph office there.

Chief Factor Macfarlane of Athabasca, who arrived here a short time ago, left by mail stage for Winnipeg on Thursday morning. He intends making a trip to Scotland before returning.

On Monday evening there was a surprise party at Mr. J. W. Hurd's house. A very pleasant and enjoyable evening was spent. Tripping the light fantastic was kept up till the wee wee hours.

A. M. Clark, secretary treasurer of the Lorne Agricultural Society, has received from the North West Council, through Mr. O. E. Hughes, M.N.W.C., a draft for \$500 for the Society for this year.

J. M. Keir, Indian Agent, returned to town yesterday. He had been away for several days visiting the different agencies in his district, and found everything quiet among the Indians under his charge.

W. J. Barker has opened out a new store, with new goods and new prices, in Conn. Brown's brick building, where Dry Goods, Groceries and the finest brands of Cigars may be had at the lowest prices.

LAND GRANTS.

We are glad to see that some of the eastern and southern papers, quoting from the recent articles in THE TIMES, have taken up the subject of the injustice done to the N. W. M. Police and our local volunteers in not giving them land grants similar to those given to the militia. This is a subject on which very little can be said apart from the actual facts themselves, and those facts we have already stated in our other articles on the same matter; so it would only be tautology to go into it again. The justice of what we ask is so plain that we wonder that any Government who wish to act rightly should not at once allow the claim that we put forward. Surely if two men work together, and do the same and an equal amount of work, then in common fairness those two men should get equal remuneration. And to shield oneself behind some quibble as to under what Acts men, who did the same service, engaged, is a very mean way of doing business, more especially in a time of rebellion, when all efforts were directed to the same great and noble ends—such as the glory of our Queen and country, the ascendancy of our flag, and the safety of our wives and families and their homes. Even supposing enough some difference in the Acts of enactment that we are not entitled to our land grant—and we don't allow this for a moment—surely it would be a just and gracious act of the Government to give it to us, the more so as it would not cost them much, and would be a great boon, to say the least of it, to ourselves. So far we have looked at the case rather from a local Prince Albert Volunteer point of view; and now for a few words on the same subject with reference to our friends of the N. W. M. Police. That the Public

did their duty well, and thoroughly everyone agrees unanimously; and this is carried out by the reports of the commanders of the several columns with whom bodies of them served. With regard to that portion of them that were stationed here, we ourselves can speak. We know what harassing times they had, and how they conducted themselves at Duck Lake. As a corps, the N. W. M. Police saw about twice as much general service in the last rebellion as any single body of volunteers in the field; and what have they got for their services? Nothing. Therefore, in common justice, they are as fully entitled to the land grant as a great many of the troops engaged in the recent troubles, and more so than some. Justice is a jewel. Let all the men who did the same work, and worked well, be equally rewarded; and the land grant having been given to the Canadian volunteers, and also some of the local volunteers, we do not think that we are saying too much if we ask for a similar favor to be shown to ourselves and the Police. In fact it is only just that it should be so. The injustice of this is the more apparent as the N. W. M. Police are at this time subject to the Militia Act, and serving under it, therefore on those grounds alone are they entitled to their land grant the same as any other corps under the same Act. In conclusion, we would like to put one question, and let who can answer it. Why should B. Battery, which was recently stationed here, get their scrip and the N. W. M. Police not? We wish sincerely some influential member of the House who takes "Justice" for his motto would take up this question, and go through with it thoroughly, and we also wish in a like manner that our contemporaries, for the sake of fair play, will ventilate this great injustice to our local Volunteers and the N. W. M. Police, to the utmost of their power and space.

THE N. W. COUNCIL.

According to despatches from Regina, the elected members of the North West Council have been hauling the Lieutenant-Governor over the coals. The most serious offences charged to him by these gentlemen are starving the Indians and causing the late rebellion. Whether his Honor will consider this action on the part of the Council in a serious light remains to be seen. We are inclined to think that he will consider himself safe behind the present Constitution of the North West Territories, and sure of his ability to defeat any action that would be likely to bring to light evidence detrimental to his interests. The action of the elected members will bring the Council prominently to the notice of all Canadians, and if it does nothing more than this, they will still be doing a great service to the North West. It is impossible that the intelligent people of Canada could be in favor of maintaining the present form of Government here; on the contrary we feel certain that public opinion will render a unanimous verdict against the present form of the N. W. Council, and one which the Government at Ottawa will be compelled to take notice of. We feel safe in saying that the next session of the Dominion Parliament will see the North West Territories Act amended in such a way as to remove all the most objectionable features at present existing. But should the elected members be fortunate enough to throw any light upon the causes of the late

rebellion, it will be a still greater benefit to the whole of Canada, and we hope it will be the means of settling forever the disputed question of responsibility for the rebellion, and put the blame on the right shoulders.

Saskatchewan Diocese

His Lordship the Bishop's Recent Trip.

His Lordship the Bishop of Saskatchewan returned home on Saturday last from a visitation of the Alberta district of the diocese. At the new town of Lethbridge, where the Galt coal mine is situated, he has opened a mission by arranging to have fortnightly Sunday services carried on by the Rev. H. T. Burns, who resides in Port MacLeod, and has also charge of a mission to the Piegan Indians in that neighborhood. A clergyman will be settled in Lethbridge as soon as possible. Sir Alexander Galt has promised fifty dollars a year towards his salary for five years, and also a donation of two hundred and fifty dollars towards the building of a church. The population of this place is rapidly increasing. At Fort MacLeod the Bishop made arrangements for the completion of the fine new church recently erected there, and placed Mr. Hilton (formerly of Emmanuel College) in charge of the mission. At Pincher Creek, thirty miles nearer the Rocky mountains, another very neat church has lately been finished, and by request of the congregation—made through their clergymen—the Bishop added this mission to Mr. Hilton's sphere of labor. His Lordship preached in both churches during his visit, and obtained liberal offerings in aid of the synod fund of the diocese.

The Bishop spent two days at the Blind Reserve mission. He paid a visit to Red Crow, the chief, at his new reserve, twelve miles from the mission house, and arranged for the immediate building of a schoolhouse there.

At Calgary the Bishop had an audience with the Rev. H. T. Burns, who was about to visit the Old rs. The Chinese people here have shown great activity and zeal. They have built a church worth four thousand dollars, and during the next year contribute very liberally to the salary of their pastor—the Rev. E. P. Smith, M.A., who is carrying on a most energetic work among them. The Bishop preached in Calgary church both morning and evening to large congregations on the Sunday he was there, and also in the afternoon at a small chapel recently erected at Fish Creek, about ten miles from Calgary. On the Monday evening a reception was given by the ladies of Calgary, when about a hundred members of the congregation were present and had an opportunity of meeting the Bishop. His Lordship also visited the reserve of the Sarcee Indians, and spent two days at the Blackfoot mission near Glendon, which is under the charge of the Rev. J. W. Sims, of the Church Missionary Society. Here a special visit was made to Crowfoot, the well known head chief of the Blackfoot nation. He lives about twelve miles distant from the mission house. Mr. Sims collected about eighty Indians to meet the Bishop in his schoolhouse. His Lordship addressed them on religious subjects, and heard the children of the school sing some hymns both in Indian and English.

In the interval between his visits to the Fort MacLeod and Calgary districts the Bishop spent a short time in Ontario, his chief object being to address the Church of England Mission Board assembled at Kingston. He pointed out to the Board the great work done among the Indians by the Church

Missionary Society of England. He referred to that Society's missions in the Cumberland district, where he had confirmed no fewer than 233 Indians in July last, and pointed out that in all that district and in the Society's missions near Prince Albert the Indians had remained loyal during the late rebellion. He urged the Board to undertake to support new missions among the Indians of his diocese on the same plan as that adopted by the Church Missionary Society, reminding his audience that the very fact of the Indian population having come under the political charge of the Dominion of Canada, formed a loud call to the Church to undertake the care of their spiritual interests.

The Bishop also spent a few days in each of the cities of Toronto, Hamilton and London, where he experienced a most friendly reception, and obtained a considerable sum of money in aid of Emmanuel College.
